

System Supporto chair user instructions.

It is important to adjust to chair to obtain a comfortable seating position.

The user's feet should be flat on the floor with an open angle between thigh and lower leg at the knee.

Please retain these instructions.

Seat height adjustment

Located on the user's right

Pull lever up to adjust to a comfortable height.

Seat back rake/angle adjustment

Located on the user's left

Lean in to backrest and push lever forward to adjust.

Release to lock in position
